

Textile braided sleeving F/GS UL

The F/GS UL sleeving consists of a glass yarn sleeving with a polyurethane varnish based on modified PUR.

Attributes

The F/GS UL sleeving is flexible, non-transparent and available in various colours. The glass fabric sleeving ensures very good mechanical properties at high temperatures up to class F (155 °C).

Application

The F/GS UL sleeving is used as additional mechanical protection for connecting cables and winding wires at high temperatures and with increased mechanical loads. It also provides additional insulation in electrical machines and transformers as well as in some electronic applications.

Standards

Thermal class F (155 °C) Continuous operating temperature -20 to + 155 °C With reference to DIN EN 60684-3 sheet 409:1999 UL approved, file no. E363755.

Delivery forms

Standard colour: nature (up to ID 16)

Sleeving diamter	Design length in m		
2.5 - 3.5 mm 4.0 - 10.0 mm	200 m cardboard spool 100 m cardboard spool 100 m cardboard spool 50 m cardboard spool		

Further dimensions, colours and formats on request. All dimensions can be delivered in adapted lengths.

Dimension	Unit of measure
